

A woman in a bright yellow raincoat and a black hooded rain cap with dark sunglasses is the central focus. She has a slight smile and is looking towards the camera. The background is a vibrant, colorful mural with various patterns and shapes, including a large yellow sun-like shape. The overall scene is outdoors and brightly lit.

Erinevad ruumiosade
tsoneerimise võimalused

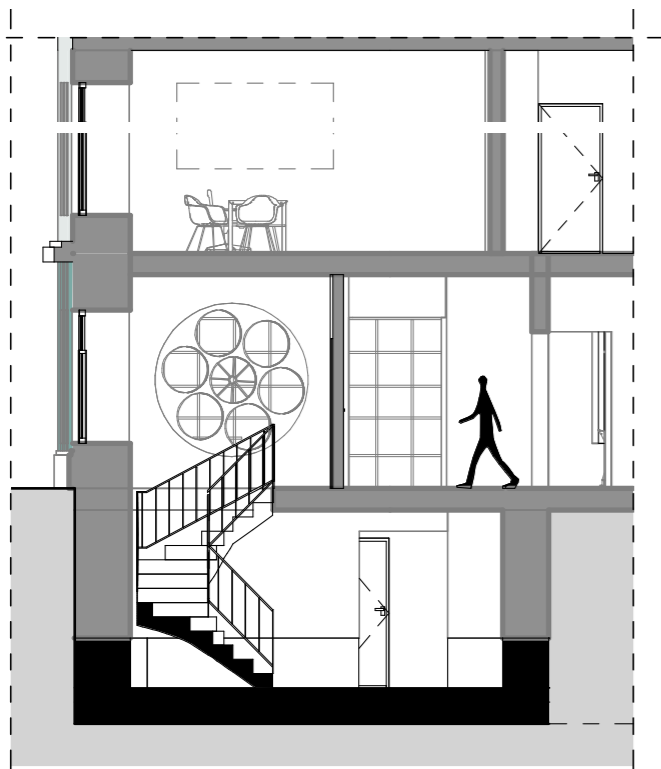

Eesmärk on võimaldada kompleksi kasutada mitmete erinevate ürituste jaoks eraldi ja samas võimalusel kasutada seda ühe tervikliku sündmuse alana.

San. ruumide sõlmede lisamine nii sissepääs 2 kui keldrisse wc-d sissepääs 1 juurde, annab võimaluse vajadusel tekitada 3 eraldiseisvalt funktsioneerivat ala. Kaks kinosali eraldi sissepääsudega ja lisaks polüfunktsionaalne ruum, mida saab kasutada haridusklassina või seminariruumina vms.

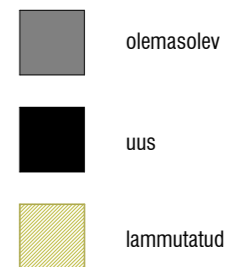

Kui oleks võimalik võtta kasutusele ka sisehoov, siis saaks selle abil ühendada mõlemad pooled terviklikult toimivaks ruumikompleksiks.

RGB LED-valgusega oleks võimalik anda kinosaalidele selgelt eristuv omapära. Lihtsalt muudetav vastavalt olukorrale. Mõlemal saalil võiks olla ka erinev geomeetiline kujundikeel.
